THE WORLD OF FAST & FURIOUS

Immerse yourself in the world of *Fast & Furious* and become part of the crew.

There was a change in the film industry following the premiere of the first movie in the *Fast & Furious* franchise in the autumn of 2001. Those who thought that it was another story about street racing could never have imagined that it would become one of the biggest blockbusters of all time. It has become a true phenomenon, attracting a growing number of fans from around the world as new titles – eight, for the time being – were steadily added to the series.

And no wonder: few action films have been able to deal as successfully with such important issues as friendship and family ties. When you add this to a cast of characters who immediately won the hearts of the public and, above all, cars that shoot across the screen at lightning speed, success is guaranteed. The fascination of these electrifying races at breakneck speed is irresistible; they are some of the most thrilling sequences that have ever been witnessed on the big screen. In each movie, Dominic and his crew surprise us with endless acrobatics on wheels, always determined to remain united at all costs. After all, who could stand up to a group of heroes prepared to defend their values, their integrity and their freedom in an exotic setting and with a fabulous soundtrack?

The Dodge Charger R/T is the most popular car in the world of *Fast & Furious*.

Now, more than 15 years after the release of the first movie in the franchise, we offer you the chance to join the crew with a unique new collection. Enter the world of *Fast & Furious* to learn all the details of this phenomenon: technical data, anecdotes, replicas, and its unique moments... And, you will do so as you assemble an exclusive detailed 1:8 scale reproduction of the Dodge Charger R/T – undoubtedly the dream of every aficionado of the modeling and the motoring worlds combined.

The driving sequences in the Fast & Furious motion pictures were filmed with professional stunt drivers, under carefully-controlled conditions, for entertainment purposes only. No attempt should be made to duplicate any of the racing activities or sequences depicted therein. Universal neither condones nor endorses the use of this or any related product in any manner whatsoever other than in strict accordance with applicable federal, state and local laws and speed limits.
